Enclosure (Rec. 1)

Dear Mr. Alfred De Zayas

We thereby inform your Office that, between 2013 and 2014, 14,000 citizens of the FTT's Zone A have signed a petition reporting Italian breaches of the civil administration trusteeship, transferred to Italy subsequently to the London Memorandum of Understanding, signed by ministers of the USA, UK, Yugoslavia and Italy.

The breaches of the trusteeship are here reported:

1) Simulated sovereignty. Instead of carrying out its mere civil administration on its respective Zone, Italy has immediately de facto performed a fully sovereignty over it, thereby preventing the condition of independence essential for the correct development of the Free Zone of Trieste. The Italian Government breaches for a long time now the international trusteeship, allowing arbitrarily and in conflict of interests a fictitious annexation of the FTT to the national territory of the Italian State, which, on the contrary, is a third State. (Attached: UNPO documents)

2) The Free Zone of Trieste has been – administratively – grouped together along with the other 24 Italian Ports, thereby not complying with anyone of the first 20 articles of the Annex VIII to the Treaty of Peace, even though these have been provided in a temporal continuum both by the 1954 London Memorandum of Understanding and by the 1975 bilateral Italian-Yugoslavian treaty of Osimo, as well as by some recent Italian Courts judgements (see attached Port Inquiry and Grant - Verdirame expertise documents).

3) Failure to implement and to recognize the Rights of Citizenship for the FTT Citizens, as disposed by Annex VI Art. 6 of the Treaty of Peace (see attached documents) with arbitrarily breach of the Right of Citizenship applied by the Yugoslavian Army Military Government (AMAJ/VUJA) in the FTT Zone B.

We deliver to your Office 13.760 signs of FTT Citizens. To this date these breaches persist.

Best regards,

Alessandro Gombač
